

clear58[®]

etafilcon A lenses

Suddenly... everything is clear[®]

- + Optimum Movement, Comfort and Handling
- + Positive Wearer Preference

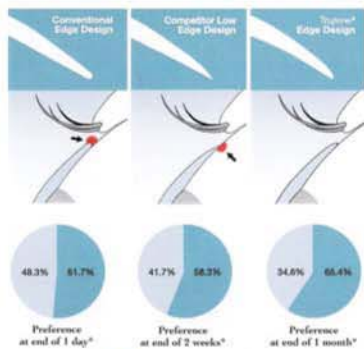

clear58[®] has been designed to bring the benefit of Ocular Insight's innovative **Truform[®]** edge to wearers of the world's most popular lens material - etafilcon A.

Wearer benefits of the **Truform[®]** edge include optimum movement, comfort and handling. The thin design of the clear58[®] also provides positive benefits in ocular health.

ENHANCING PERFORMANCE THROUGH INNOVATIVE LENS DESIGN

clear58[®] has been extensively tested in a range of studies on a two week frequent replacement basis. The advantages of the **Truform[®]** thin edge have been evaluated in a three month study conducted in Australia and the UK.

*Data on file, clinical dispensing study, 62 subjects

Truform[®] Edge Design

- Results in smoother and thinner geometry
- Optimum movement with superior comfort
- Higher acceptance rate from wearers

Positive Wearer Preference

- Switching wearers to clear58[®] yields high patient satisfaction
- Clinical data showed equivalence to other market leading etafilcon lenses in terms of vision, handling, fit and comfort

SPECIFICATIONS - clear58 [®]	
Material	42% etafilcon A, 58% water
Base Curve (Minus)	8.70 mm (flat) 8.50 mm (steep)
Diameter (Minus)	14.0 mm 14.0 mm
Base Curve (Plus)	8.70 mm (flat)
Diameter (Plus)	14.5 mm
Handling Tint	Light Blue
UV Blocking	UVA + UVB
Power Range	-10.00 to +6.00 0.00 to -6.00 (0.25D steps) -6.50 to -10.00 (0.50D steps) +0.25 to +4.00 (0.25D steps) +4.50 to +6.00 (0.50D steps)
Oxygen Permeability Dk @ 30°C	18.85 x 10 ⁻¹¹ (cm ² /s)(cm ³ /ml.mm.Hg)
Centre Thickness*	0.08 mm @ -3.00 D
Pack Size	6 lenses

*-3.00 D lens
